Investec Flexible Investment Note

The Investec Flexible Investment Note (“**FIN**”) is a long dated structured product in the form of a note listed on the Johannesburg Stock Exchange (“**JSE**”) which is issued by Investec Bank Limited (“**IBL**”) under the IBL Warrant and Note Programme. The FIN offers investors exposure to the performance of a sequential series of IBL structured investments during that period, such as the Digital Plus or other structured investment profiles (each an “**Investment Profile**”) and will provide a cumulative return based on the performance of each Investment Profile. The FIN has a potential maximum term of up to 20 years and is divided into a number of shorter periods (“**Calculation Periods**”). Each Calculation Period will correspond to a particular Investment Profile, the first Investment Profile for the first Calculation Period (“**Investment Profile No.1**”) is detailed below.

Investment Profile No.1 - Investec World Equity Market Digital Plus

How does the Digital Plus work?

The Investec World Equity Market Digital Plus (“**Digital Plus**”) is a structured Investment Profile linked to the performance of a basket of indices and ETFs with a high correlation to world equity markets (“**Basket**”). The Digital Plus constitutes the Investment Profile No.1 for the first Calculation Period of the FIN.

The Digital Plus provides a minimum return of 25%* in Rand if the Basket Return is flat or positive over the 3.5-year term of the investment.

By purchasing the Digital Plus, the investor has exposure to the performance of the Basket from the Trade Date for a 3.5-year investment term. At maturity of the Investment Profile, if the Basket Return is

greater than or equal to zero but less than or equal to 25%*, the Digital Plus will pay the investor a return of 25%*.

In addition, if the Basket Return exceeds 25% then the investor will receive the full growth of the Basket (the Digital Plus return is uncapped). The investor’s return is calculated and settled in Rands.

** Indicative – the final return will set on Trade Date*

Index	Geography	Weighting
S&P 500	USA	40%
iShares Core EURO STOXX 50 UCITS ETF	Europe	25%
Nikkei 225	Japan	15%
FTSE 100	United Kingdom	10%
iShares MSCI Emerging Markets ETF	Emerging Markets	10%

Important Dates

Closing Date: 10 March 2026

Trade Date: 13 March 2026

Listing date: 18 March 2026

Valuation date: 13 Sep 2029

Please note that we are permitted to market the product prior to the JSE granting its final approval of listing, which is still to be obtained.

Summary of the FIN Investment Profile No. 1 FNIB25 Investec World Market Digital Plus March 2026

Digital return of 25%* in Rand, if the Basket Return is flat or positive on the Valuation Date.

Investment linked to the performance of a basket of indices and ETFs giving exposure to world equity markets.

3.5-year Investment term.

Capital protection provided the Basket has not fallen by more than 40% since Trade Date on the Valuation Date of the Digital Plus.

Limited offer: closes 10 March 2026

Investments in the FIN from R100,000, and in increments of R1,000. Thereafter Investors take credit risk on IBL as the issuer of the FIN.

*** Indicative – the final return will set on Trade Date**

When is my capital at risk?

Capital is at risk if the Basket after 3.5 years has fallen by more than 40%, this is referred to as a European barrier. If this occurs, capital will be reduced on a one-for-one basis with the fall in the Basket Return.

For example, if the Basket is -47% on the Valuation Date, the Digital Plus will have a capital loss of 47%. Investors also take credit risk on IBL as Issuer and therefore capital is at risk if there is any default by the Issuer.

Daily pricing of the FIN

Liquidity in respect of the FIN will be provided by IBL who undertakes to act as sole market maker. IBL will provide a daily price for the FIN which will be determined with reference to the market value of the relevant Investment Profile at the time.

During the term of the Digital Plus the value of the FIN could be lower than the stated protection level of the Digital Plus irrespective of the Basket level at the time. Daily pricing will be published on the JSE with a 1.0% bid/ mid spread. IBL will provide bid and offer prices for the FIN under normal market conditions; however liquidity could be limited.

What Fees are charged?

Investec Distributors of the FIN receive a fee in respect of each Investment Profile within the FIN and in the case of the Digital Plus, Investec Distributors will receive an upfront fee of 1.25% (incl VAT) in year 1, 0.75% (incl VAT) in year 2 and 3 paid by IBL in Rands.

The fee for the Digital Plus is built into the cost of the Digital Plus, and the investor will have 100% of their funds allocated to the Digital Plus. All other listing, administration and ongoing custody fees have been priced into the Digital Plus; however, investors may incur brokerage costs as determined by Investec Wealth & Investment International if the FIN is sold before the Reset Date.

What happens on a Reset Date of the Digital Plus?

On the Reset Date, the Digital Plus as the Investment Profile No.1, may be substituted by IBL for another Investment Profile which will apply for the following Calculation Period of the FIN.

Prior to the Valuation Date of the Digital Plus, details of the indicative Return Amount for the Digital Plus and proposed new Subsequent Investment Profile will be provided to each Investor.

Based on the indicative information, Investors can elect to remain invested in the FIN by accepting the Subsequent Investment Profile or to redeem their investment.

Holders of the FIN who wish to invest in the subsequent Investment Profile must deliver a notice of acceptance to IBL confirming acceptance of the Subsequent Investment Profile prior to the Valuation Date of the Digital Plus and their Return Amount from the Digital Plus will remain invested in the Subsequent Investment Profile of the FIN.

Those investors who do not accept the subsequent Investment Profile by completing an acceptance form will have their FIN Notes redeemed on the relevant Settlement Date for the applicable Return Amount of the Digital Plus.

What are the risks of the FIN and Digital Plus?

Investors should note that the FIN is an inward listed structured product under the IBL Warrant and Note Programme and the Digital Plus is the first Investment Profile within the FIN. Investors take full credit risk on IBL as Issuer of the FIN.

The levels of the indices and ETFs within the Basket fluctuate and changes to these levels cannot be predicted. Past performance of the Basket should not be seen as an indication of future performance.

The valuation composition and calculation of the indices and ETFs within the Basket in respect of the Digital Plus is independently managed by the respective sponsors of the indices and ETFs. IBL is not involved or responsible for the indices and ETFs and will merely utilise the index and ETF prices as published. IBL will not be liable for any losses that may occur due to any issues or errors in relation to the indices and ETFs.

The Digital Plus provides capital protection on the Valuation Date and only in the event that the Basket Return is not less than -40% on the Valuation Date. If the Basket Return is less than -40%, the capital protection falls away and the Return Amount of the Digital Plus is exposed to the full downside of the Basket Return. Dividends are not included in the Digital Plus return.

If an Investment Profile includes capital protection on its final Valuation Date, such as the Digital Plus, exiting the investment in the FIN before the final Valuation Date of that Investment Profile, may result in a capital loss even if the Basket Return is positive at that time (the capital protection only applies on the final Valuation Date of each Investment Profile).

✓ Investment in the Digital Plus **may** be right for you, if

- You think that the Basket Return will be positive in 3.5-years.
- You are looking for an investment that offers enhanced upside and potential to limit the downside exposure.
- You do not need immediate access to your money for the term of the Digital Plus.
- You have a minimum of R100,000 to invest.

✗ Investment in the Digital Plus **may not** be right for you, if

- You want 100% capital protection under all conditions.
- You want to receive regular dividends and income.
- You cannot commit to the term of the Digital Plus.
- You do not want to take credit risk on IBL.

What is the Flexible Investment Note?

The Investec Flexible Investment Note is a long dated structured product in the form of a note which is listed on the JSE. It is issued by IBL under the IBL Warrant and Note Programme.

Prospective Investors must ensure that they are fully aware of the risks involved when investing in structured products. It is recommended that Investors seek professional advice and read the applicable Term Sheet, Application Form and Warrant and Note Programme prior to making any investment decision.

Details of the Flexible Investment Note and Warrant and Note Programme are available on the Investec Bank Limited website at www.Investec.com/StructuredProducts or from your advisor.

The FIN offers investors exposure to the cumulative performance of a sequential series of IBL investment profiles during that period, such as the Digital Plus or other structured investment profiles (each an Investment Profile). Each Investment Profile will be allocated a separate series number within the FIN and the FIN will provide a cumulative return based on the performance of each Investment Profile.

The FIN has a potential maximum term of up to 20 years and is divided into a number of specified shorter Calculation Periods each of which will match the term of a particular Investment Profile. At the end of a Calculation Period the Investment Profile may be substituted by IBL for another Investment Profile which will apply for the following Calculation Period.

Prior to the end of the current Investment Profile, INL may deliver a detailed term sheet and acceptance form setting out details of the proposed new Investment Profile.

Investors may elect whether to remain invested in the FIN, which they will do by signing an acceptance form for the new Investment Profile and delivering same to IBL (prior to the Valuation Date of the current Investment Profile) or to exit their investment in the FIN if they do not accept the proposed new Investment Profile.

Investment in the FIN will automatically terminate at the end of the Calculation Period if IBL does not receive signed acceptance form for the new Investment Profile for the next Calculation Period.

INVESTEC WORLD EQUITY MARKET DIGITAL PLUS MARCH 2026

The terms outlined below represent an investment in the Flexible Investment Note.

Flexible Investment Note Terms

Flexible Investment Note (FIN)	Investec Flexible Investment Note - FNIB25

Settlement Date	4 Business Days after a Reset Date at the end of an Investment Profile if the Investor does not select a new Investment Profile to replace that Investment Profile

Investec World Equity Market Digital Plus Terms

The Investment Profile for the first Calculation Period of the FIN is the Investec World Equity Market Digital Plus (Digital Plus), details of which are set out below. The information set out in the terms below provides a summary of the (Digital Plus) only. Terms used, but not otherwise defined herein shall have meanings given to such in the relevant Pricing Supplement.

The full terms and conditions of the Digital Plus will be set out in the Pricing Supplement. The Pricing Supplement will be made available on the listing date on the IBL website at www.investec.com/StructuredProducts.

Completion and signature of this Application Form and Term Sheet by the Investor constitutes a mandate for IBL to implement the investment in the FIN with the Digital Plus as the first Investment Profile per the terms and conditions set out herein.

The implementation of the FIN and Digital Plus investment remains subject to acceptance by IBL

of the signed Application form and payment of the relevant minimum investment amount by the Investor.

IBL will target an enhanced return level of 25% for the Digital Plus, however, due to the volatile nature of the underlying indices and ETFs, we reserve the right not to proceed on Trade Date should the level of the enhanced return offered by IBL be below 25%.

In addition, IBL reserves the right not to implement the FIN if any change in circumstances occurs which would adversely affect its ability to implement the investment.

If you are unsure how this listed FIN works or whether it is suitable for your investment needs, please seek advice from your investment manager.

The terms outlined below represent the payoff profile of the Investment Profile No.1 of the FIN, namely the Investec World Equity Market Digital Plus.
